Grant Wecker

Web developer

grantwecker.com grantwecker@live.com github.com/gwecko

Summary

Creating digital experiences both with the big picture in mind and love for detail. College educated in computer science and design, self-taught in web development through project-based learning. Currently making pretty, functional sites w/tech listed below.

>Education

Formal

The Ohio State University (2017–21)

B.A. Comm. Technology, Minor Computer Science

Relevant Courses

Software Components, Foundations, Systems, Human & Computer Interaction, Communication Network Infrastructure, Design as Presentation, Social Media Analytics, Survey of AI, Evaluation and Usability Testing

Informal

The Web Developer Bootcamp – Udemy, Colt Steele (2021–22)

>Experience

Yelpcamp (node.js, Express, Mongo, Mapbox)

Full-stack web app. User account creation & authentication, CRUD functionality for posts, comments, and images. All info stored in Mongo and Cloudinary databases. Mapbox API implemented. Learned simple preventative security measures.

Personal site (React, Gatsby, styled components)

My personal site (grantwecker.com) from scratch. Designed single page site; no templates used. Collapsible content, intuitive and responsive design. Used as process to learn the basics of React and search engine optimization.

Spotify app (React, styled components, Spotify API)

Authenticate user account w/Spotify OAuth2. Pulls personalized top tracks and displays in fun manner, downloadable and ready for sharing to social media.

>Work

Bartender @ Threes Above High (Aug. 20–present)

Outstanding customer service skills in a volume-based bar, created content on weekly basis for social media, voted top 16 campus bar in USA (Barstool sports '21)

>Skills

Languages

- JavaScript
- Node.js
- GraphQL
- HTML/CSS
- C

Frameworks /Libraries

- React
- Gatsby
- Express
- jQuery
- styled components
- Bootstrap

Other
